Goal: Develop a master space plan for Jackson and Schiffman Libraries in order to maximize space for services, learning and unique materials.

Goal: Explore the creation of a Digital Scholarship Research Network at UNCG and beyond in order to provide critical research support services to faculty and students.

Goal: Undertake an information fluency initiative in order to expand information literacy/fluency on campus and in the community.

Goal: Develop services, resources and programs in Health and Wellness in order to increase health literacy on campus and in the community.

Goal: Make UNCG an Open Educational Resources (OER) leader within the state in order to reduce the cost of a college education for our students.

Goal: Migrate to a more friendly and mobile-accessible Digital Asset Management System in order to increase access to UNCG’s unique digital collections.

Goal: Develop a GIS/data service in order to provide campus-wide support to all UNCG faculty and students.
