Path Tutorial - Module 8: 3rd Plagiarism Scenario

Video Script Scene: Two friends - Lauren & Kayla - meet up in a computer lab.

Lauren: Hey!

Kayla: You finish that English paper yet?

Lauren: Almost, I got some help from the librarian, and I learned how to cite all my sources, so I should be pretty set.

Kayla: Yea me too. I used their online chat and I didn't have to leave my door room. Neat, huh?

Lauren: I think I need a few more sources though. I think I will just go and Google it.

Kayla: (Looking at the computer screen) Try that first one right there.

Text appears: "The Web can be a great place to find resources ... but make sure you choose legitimate organizations or people who are experts."

Lauren: I can definitely use this. But I wonder if I have to cite it? It's on the web, anyone can use it right?

Text appears: Does Lauren need to cite a Web site?
